

16th Human Proteome Organisation World Congress
The Convention Centre Dublin, Ireland 17 - 21 September 2017

L. Hood

L. Martens

J.A. Vizcaino

J. Van Eyk

Early Career Researchers (ECR), the Young Proteomics Investigator Club (YPIC) and the European Bioinformatics Club (EuBIC) invite you to participate in the

Mentoring Day **Sunday, September 17th, 2017**

This year, three organizations have joined forces to program a day dedicated to themes that concern young researchers:

how to develop a scientific vision, different science career paths, how to collaborate, and the editors' point-of-view to manuscript submission.

The afternoon Round Table Session and happy hour will provide the young scientist/participants with the opportunity to connect and build network with world-renowned scientists that will lead the different sessions throughout the day.

Join us and have fun while getting inspiration for a successful scientific career!
